BOUQUET PER VITTORIA

This gorgeous floral painting is the third in a series that artist Arianna Caroli has created as an Artbox for The Athenee Hotel, a Luxury Collection Hotel, Bangkok. Bouquet per Vittoria is inspired by Arianna's grandmother Vittoria. Warm, pink blooms infuse the bouquet with positive energy, while the red colors represent love, wealth, and richness of spirit and soul. Arianna's paintings combine eastern mysticism with western expressive power, and she lives surrounded by art and beauty. We are very proud of our collaboration, and feel that Arianna's work represents the tradition of Princess Valaya Alongkorn, daughter of King Rama V of Thailand, who resided at Kandhavas Palace, which stood on the grounds where The Athenee Hotel stands today.

Arianna Caroli

Thiaume Paul

This precious hand-printing is the result of a series that artist Athina Coull has created in
an honor for The Athenees Hotel, a Luxury Collection Hotel, Bangkok. The artist per Vittoria
is inspired by Athenees's commitment to quality. Athina Coull draws nature the transport with
positive energy, which she has woven into each piece, creating a sense of spirit and soul.

Athina's artistic inspiration comes from her travels with her family, especially to Italy, and the
beautiful work of the Italian Renaissance. She has been inspired by the masterpieces of
Raphael, Leonardo da Vinci, and Michelangelo, and the work of the Venetian school
of painting, especially the work of Titian and Veronese.
